Wrinkles

Around the Eyes

Are usually caused by defective sight. Many women, and likewise men, look prematurely old from these wrinkles. The wrinkles in many cases can be removed by wearing correctly fitted glasses. To fit glasses correctly demands a thorough knowledge of refraction and the necessary instruments. We have both; hundreds of satisfied customers will say so.

STREET CARS OR NOT?

THIS IS THE BURNING QUESTION TO BE DECIDED NEXT MONDAY NIGHT.

Will Greensboro Seize This Opportunity to Rank Among the First Towns in the State, or Will She Longer be Content to Occupy Second Place?

At a called meeting of the Industrial and Immigration Association, held on Thursday, September 15, a committee was appointed to prepare the following statement, which was presented to the board of aldermen the following night:

"The Industrial and Immigration Association, believing that the best interests of Greensboro demand an electric street car system, electric power for manufacturing, and a more complete system of electric lights, furnishing not only arc lights for the streets, but also incandescent lights for residences, stores and offices, and knowing that our present lighting contract expires on January 1, 1899, and learning further that the board of aldermen is considering the matter of closing at an early date a new contract for lighting the streets, desires to urge your honorable body not to enter into any contract with any party or parties until every possible effort shall have been made to secure an electric system that shall furnish to our city:

"1. Street lights.
"2. Incandescent lights for stores, offices and residences.
"3. Convenient electric power for small manufacturing enterprises.
"4. A street car system."

After some discussion the board of aldermen unanimously passed the following resolution:

"Resolved by the board of aldermen of the city of Greensboro, N. C., That it is the sense of the board that it would be for the best interest of the city to give its contract for lighting the streets to a person or persons or corporation who will, besides lighting the streets, furnish power for factories, put in incandescent merchantable lights, and establish and maintain a street car system, and that bids to this end be invited; and further, that a committee of three be appointed by the mayor to investigate the matter, and to act with a like committee from the I. & I. Association."

We believe the board of aldermen voiced the sentiment and wishes of the people of Greensboro. This city needs a street car line and a reduction in price of merchantable lights to place her alongside of Charlotte, Winston, Raleigh, and Wilmington, the opinion of the New York party, as quoted in the Daily Record, yesterday, to the contrary notwithstanding. Greensboro people are, perhaps, better judges of what is best for the city than a man who never saw the city.

We are not called upon to judge Greensboro by New York, Burlington or Reidsville (and we most certainly mean no discourtesy to the two latter towns), but a fairer test is a comparison between this place and those of like population and other advantages which already have street cars. Ask any of them you choose whether street cars have been beneficial or not and we are willing to accept their answers as a verdict.

The idea that people will move out of town to avoid taxes, etc., is a theory we do not believe will work. No sensible business man, we believe, would desert his home in town and move outside, at least not until he had sold his inside property to some one else. And will it be argued that the man who purchases this property will have the house moved and desert the lot on which it stood?

No, property in town will not be turned out to grass. And suppose the town should grow at an early date to fifty thousand population, it would be absolutely necessary for some residence lots to be given up for business sites. A street car line would, also make the city more desirable as a manufacturing center. It would give quick transportation from the suburbs, where factories are and will be located.

Again it is argued that when the town spreads out it will cost so much more to build streets. From the present manner of building streets that sounds like a joke. But, seriously, the city would be under no earthly obligations to build streets for the benefit of a man's property who had moved out of town to avoid paying taxes.

We believe in city ownership of the waterworks; but when the city ownership of the electric light plant means that we have got to build a big city before we will have street cars, and thus be for years deprived of one of the greatest helps in building a city, as we see it, we are opposed to it.

Much of the future growth and prosperity of the city of Greensboro and her institutions depends upon the action of the board of aldermen in this matter.

THE NEGRO PROBLEM.

What Senator Caffery Says Will Be Done With Them.

Washington, D. C., Nov. 18—Senator Caffery tonight, commenting on the race troubles in North and South Carolina, said to a representative of the Post that he considered the solution of the negro question one of the most vital to the interests of this republic.

In the south, he said, the negro is now controlled either by law or fraud, and it would not be more than two decades before the herculean task of deporting him to some other country would confront the law-makers. In controlling him by fraud the white people of the south had necessarily weakened their ideas of a republican form of government. And if it were necessary to the establishment of a monarchy to control the negro and to insure white supremacy, and the alternative was presented of negro domination or monarchial rule, then the white people would choose the latter.

"I have been reared and still live," he said, "among the negroes. They have increased from six millions before the war to twelve millions now, and in two decades they will have increased to twenty million souls.

"They are aggressive, and their sole and constant desire is social equality with the whites.

"This the white man will not, and ought not, to permit. We have had samples of their aggressiveness within the last few weeks. Owing to their habits, it costs them less to live than it does the white man, as their wants are fewer. They have underbid the miners in Illinois, and caused a riot resulting in the loss of a number of lives; their domination in Wilmington, N. C., has resulted in a riot, the result of which is fresh in the public memory. The action of the negro immune regiments in Alabama and in Cuba alike demonstrate their aggressiveness without demonstrating any intelligence. All of which shows to my mind that they cannot become a part and parcel of our homogenous people.

"As they increase and multiply they will invade the north, and then it will be that the demand for their deportation will be made."

Card From Capt. Forbis.

Mr. Editor:—While I appreciate your compliment paid me on the day after the election (in the court house), I wish to correct an error you made in regard to going home. I cannot see how any man can conceive of a people's party candidate going into the democratic camp. Though defeated, I do not wish my friends to think me fickle. I stand square on the people's party platform, and expect to remain there. J. W. Forbis.

THE UTMOST IMPORTANCE.

The Work of the Industrial Labor Commission.

CONGRESS MAY BE ASKED FOR AID

Col. Turk Returned to Washington The President May Not Announce Southern Appointments Soon.

Special to the Telegram.

Washington, Nov. 19—The various committees of the Industrial Labor Commission having been appointed, it will not be very many days before the commissioners get down to hard work. Mr. C. J. Harris, of North Carolina, a member of the commission was seen yesterday at the committee rooms of of the sub-commission on transportation, of which he is a member, at the Bliss building, and he stated that the work assigned to the members of the commission is very important, and that they are anxious to get at the actual work of investigating in the different branches of labor as soon as is possible.

The Committee on transportation held a session Friday, and it was not long before the members were thoroughly engrossed in the work before them. It has been decided to ask for an interview first with the Interstate Commerce Commission, and it is likely this will be granted next week. Mr. Harris stated that it is proposed to obtain their views regarding the inquiry relating to labor and railroads and also that the various labor organizations existing among railroad men would be heard in reference to the subject of transportation and other questions affecting the railways of the country.

Senator Daniels, of Virginia, who has been constant in his attendance upon the sessions of the commission regards the work to be done as of the utmost importance to the laboring world. The Senator will engage as actively in the work of the commission during the present congress as his senatorial duties will permit him.

Senator Mallory, of Florida, who is one of the prominent leaders in the work assigned to the commission has been assigned to the sub commission on transportation. The Senator, like his colleague from Virginia, is considerably interested in labor problems, and regards the work of the commission as of the greatest importance to laboring men.

It is regarded as probable by some of the members of the commission that later on it may become necessary to ask congress to pass an act extending the scope of the investigations to be conducted, but if this is done it will probably not be before the meeting of the fifty-sixth congress.

An announcement has been made which is of considerable interest to a large number of southern people. It is to the effect that the well known firm of H. C. Wright, and company, of Richmond, Va., have been awarded the contract for the extention of the Atlantic Coast line railroad from Barnwell to Robbins, S. C. It is said that the company was given the contract from the fact that they were the lowest bidders for the construction of the extension of the line. At the office of the Atlantic coast line in this city no information could be obtained upon the subject, but as the information comes from a reliable source it is not doubted.

Mr. W. A. Turk, the popular general passenger agent of the Southern Railway, has returned to Washington from a trip south. Mr. Turk went as far as Raleigh, North Carolina, on business in relation to the Southern. He returned to the city on the Southern train reaching here yesterday morning.

It is stated at the white house that President McKinley will not announce very many, if any, southern appointments until after the assembling of congress. There are a number of post offices to be filled in the south, including several in North and South Carolina. There are but very few important postoffices remaining to be filled in Virginia. All of the principal postoffices in the state, including Norfolk, Richmond, Roanoke, and Lynchburg, having been filled.

Don't Get Left.

A full house will greet the Myrkle & Harder Co. at the Academy Monday night, and the way seats are being taken at the reserve seat stand at this time, standing room will be at a premium. The best company playing at 10, 20, and 30 cents is what everybody says. Doors will open at 7:30, and performance begin at 8:15.

SATURDAY, NOV. 19, 1898.

Ann now it is announced that Senator Butler's paper, the Caucasian, will move back to Goldsboro. This step is taken in order to reduce expenses of publication. From a large circulation it is claimed the Caucasian has been reduced to about two thousand. This may be taken as an indication of what Senator Butler's following for Senator will be two years from now.

Pray, somebody tell us what a New Yorker, who has probably never seen Greensboro, knows about what is best for Greensboro. The question is, did the board of aldermen mean what it said when it passed a resolution declaring in favor of establishing a street railway system? And are consumers here to get no relief from the present exorbitant gas bills?

It is said that Railroad Commissioner John H. Pearson will introduce a resolution at the next session of the commission ordering all the railroads in the state to provide separate coaches for the white and colored people. The News and Observer says the resolution has already been drawn and will doubtless be adopted by the commission.

WILL LEAVE RALEIGH,

Senator Butler's Paper, the "Caucasian," Goes Back to Goldsboro.

The Caucasian will seek new quarters and new surroundings. The last issue of Senator Butler's paper has made its appearance in Raleigh.

The plant is being moved to Goldsboro, where it will be printed in the future The advertising and business offices will continue in Raleigh, and the paper will be mailed from this point.

One of the compositors, who has been employed on the paper, said yesterday: The object in having the paper printed in Goldsboro is to reduce espenses. It is a strike at organized labor. Senator Butler has to pay Union wages in Raleigh and by having it published in Goldsboro he can employ rat labor.

"The paper is going down the hill. It only has 2,000 subscribers and is fast losing the hold it once had."—Morning Post.

Reefton, New Zealand, Nov.23,1896. I am very pleased to state that since I took the agency of Chamberlain's medicines the sale has been very large, more especially of the Cough Remedy. In two years I have sold more of this particular remedy than of all other makes for the previous five years. As to its efficacy, I have been informed by scores of persons of the good result they have received from it, and know its value from the use of it in my own household. It is so pleasant to take that we have to place the bottle beyond the reach of the children.

Oscar Flag, is a low, heavily constructed negro. Oscar is most probably of the opinion that marriage is a failure, for his married life is marked by innumerable fights and yesterday he began his fourth term on the county roads. But those who are acquainted with Oscar say it is he that is a failure. His wife says he is about the most disagreeable "cuss" it has ever been her misfortune to meet.

Yesterday his wife loaned her hat to a colored sister to wear up town. Oscar met the woman, took the hat from her and tore it up. He kept the ribbon and showed it to 'Squire Pritchett pesterday as evidence that he did the job effectively. This and a few wife beatings 'Squire Pritcheet thought worth five dollars and costs and this is what sent Oscar to the roads.

Crown Crab Apple Blossom.

The Historic Wild West.

Pawnee Bill advertised to show rain or shine and "he did." With the show ground in mud six inches deep, Pawnee Bill hardly expected anything like a crown either yesterday afternoon or last night but he showed anyway. As for the rain, it added realism to the wild and wooly acting, but it was exceedingly unpleasant for the actors. The show was very good however and Pawnee Bill need have no regrets for yesterday except from a financial standpoint. The show winds up the season today at Reidsville, where the baggage horses will be sold. The trained horses will be let out during the winter for their feed.

No Game Today.

The game of football which had been advertised to take place here today between Oak Ridge and Guilford College teams, was not played. The reason of the disappointment is, we are informed, because Guilford objected to two men on the Oak Ridge team and therefore refused to play.

that a certain man told us that he didn't know we sold mantels—but he was a stranger in town. You have no advantage over him if you buy before you see our magnificent line of up-to-date mantels. Then inspect our line of coal vases. Fire sets, Brass Andirrus, and GRATES,—don't forget the Grates. They are a revelation in style and beauty.

The Social Standing

of most men is much higher than the sum of their income. To such men it must be good news to learn that they do not have to pinch themselves in order that they may pay the extravagant tailor's bills. We sell perfectly fitting clothes for business, semi-dress or full dress occasions of unquestionable style and superb qualities at prices which permit the saving of almost half tailor's bills. Our best clothes are made by the famous New York tailors, Messrs. Fecheimer, Fishel & Co., whose label on every garment is a guarantee that the clothes are equal to "custom made" in every particular. Therefore, whether it is a sack suit, a cutaway or a Prince Albert frock, a pair of trousers, a top coat or an overcoat that you need, do yourself the justice to at least see our offerings—and then go to your tailor if you like—but you won't.

The Greatest Clothing Sale

$20,000 Worth of Clothing

Must Be Sold in the Next 30 Days

50 pr ct. less than Manufacturers Cost

Sale To Open

WEDNESDAY, November 23.

This stock is representing the production of one of the best and most popular Eastern clothing manufacturers, who finds himself today badly entangled financially, pushed to the very well of ruin, and must save his honorable name at all hazards. You must remember that this is no idle boast nor a statement of a fanciful mind, but we mean to substantiate every syllable we utter. We positively guarantee that our All Wool Clay Worsted Mens Suit for $6.50 must be as good in every detail as the kind sold here for $13.50. An all wool up to date Kersey suit for $5.50 must match any one sold for $12.50. The all wool Cashmere for $3.50 must surpass the $8 kind you get elsewhere. Our $2.50 suit must look as good and wear as good as any $6.50 suit in this market. Covered Cloth and Blue Kersey Overcoats for $4.50 and $5.00 we are satisfied to guarantee to be actually the same as the $10 and $12 goods sold by every retail dealer. Pants for 75 cents, $1 and $1.75 will take place of the best $1.75, $2.25 and $3.00 goods. If you don't find them as we say, bring them back and you shall get your money.

REMEMBER

this is your first, and possibly the last chance in your entire lifetime, to purchase your clothing direct from the manufacturer at such ridiculously low prices. You are all invited to come, and must come early, for the goods will move fast and you don't want to miss it, the only thing left.

Remember the place. Our store is in the

McAdoo Building,

N. Balser, Manager. Corner East Market and Davie Strsts.

P. S.—The first gentleman entering our doors when we are ready for the opening of our sale, will be presented with a suit of clothing worth $8.00.
